AGEING POPULATION

Growth in Elderly Population: We pay meticulous attention to every detail, ensuring smooth and efficient operations without any surprises.

INCREASED LIFE EXPECTANCY

Longer Lifespans: Life expectancy in Northern Ireland continues to rise, leading to an increased need for domiciliary care to manage chronic conditions and disabilities among the elderly. Many people are living into their 80s and beyond, which necessitates sustained care services.

HIGHER PROPORTION OF OLDER ADULTS

Demographic Shift: By 2024, the number of people aged 65 and above is expected to surpass those under 15 years, highlighting the growing need for elder care services.

PROMOTION OF INDEPENDENT LIVING

Government Support: Initiatives from local authorities and Health and Social Care Trusts (HSCTs) promote independent living, which increases the demand for domiciliary care.
